Bridge Systems**

**IT Cloud
Solutions**
(FleetOnCloud)

**Navigation
Equipments**

We were born from an idea of the 20th century's greatest innovator, Guglielmo Marconi. SIRM Italia and SIRM Marine UK Ltd., the legacy of Marconi Maritime, honour the spirit of the founder, creating innovative solutions for the maritime industry, and developing it within the constellation of the IT specialised companies belonging to Metoda Group.

Our vision is to offer Navigation, Communication and Information Technology solutions to all sectors of the industry, in both domestic and worldwide markets.

Our strength is the ability to offer end-to-end system integration by pooling knowledge of customer needs and industry regulations, a strong partnership with leading brands in the industry and the expertise of the staff of our competence centers. This allows us to offer innovative solutions based on the latest satellite communication offerings, combined with applications based on the latest ICT paradigms to offer value-added services that support the digital transformation of the business of shipping companies.

OUR MAIN PARTNERS

SIRM is able to provide a complete range of products, high quality installation and an excellent customer support through the partnership with the main international brands.

SBM contracts and complete customer support for all bridge equipments. Our partner network ensures coverage on all major shipping routes.

Airtime Network Operation Center A team of professionals to ensure the best support for VSAT & MSS satellite broadband telecommunications. SIRM is a partner of Inmarsat, Iridium and the main VSAT providers.

SIRM UK Marine Ltd. has more UK based marine electronics engineers than any other company and a network of regional offices across the country. The regional offices act as a first line of contact for customers, offer local expert knowledge – as well as engineering support around the clock – and are strategically based in, or near to, local ports and harbours.
